Join **Harvey Myzel, two-time kidney transplant recipient** and Living Kidney Donors Network founder, for an inspirational communications training workshop that will empower you to speak confidently and compellingly about your need for a living kidney donor. The workshop is also for advocates, friends, and family members who want to help you in the search, so invite them to join you. You will learn the facts about living donation and leave with the skills to effectively communicate this information to others.

There are many benefits of a kidney from a living donor: on average, the kidney lasts twice as long as one from a deceased donor. The surgery is now laparoscopic, with far faster recovery. Hear what transplant recipients and donors say about the process.

Space is limited! RSVP to attend:
Harvey Myzel (312) 473-3772
or email: harvey@LKDN.org

If you are apprehensive about talking to others about your situation, this workshop is for you! You will leave with a plan to start you on the path to a successful living kidney transplant experience.
